

With Christmas traditionally being a time of giving it is important that we continue to support those around us, both locally and in the wider community. Amati Global Investors Limited continue to uphold their practice of donating 10% of their profits to charity and, with Amati being a part of the Mattioli Woods family, we are able to benefit from this incredible generosity. Each year our employees help us distribute these funds and in 2021 we received 58 requests for donations to charities that either provide support directly to our colleagues or are areas important to them. These charities are listed below along with some photos and just a sample of the thank you messages we received.

Wishes 4 Kids

Young Epilepsy

We are committed to help those in our local community – your donation enabled us to support children in need with Primark vouchers and fresh fruit and vegetables that will be distributed from Christ the King Foodbank in Beaumont Leys this week. Thank you. **Humanity without borders.**

Your support means so much to children, adults and families with complex disabilities. Your donation could fund three visits from a Sense specialist Children & Family Support Worker to give ongoing help, support and advice to a disabled child and their parents. Thank you. **Sense.**

It is lovely that we get to pass on a smile and gift to recognise those people who can need it most at this time of year. This will go a long way to spread some cheer and let people know they are not alone and we stand together with them as they face challenging times. Thank you so much. **Valley Church.**

The kind donation from you will help us cover full vaccination treatments for nearly 25 cats. **The Society For Abandoned Animals.**

Your support is vital as over 42,000 people are diagnosed with bowel cancer each year in the UK. Thank you. **Bowel Cancer UK.**
