

BNP Paribas

The Triple Index Income Plan September 2020

Factsheet

This is a marketing factsheet for professionally advised investors. The factsheet is not investment advice from either IDAD or the Issuer, and must not be construed as such by advisers or investors. Capital is at risk and subject to Issuer risk.

IDAD Limited is Authorised and Regulated by the Financial Conduct Authority FCA FRN 740499. No part of this publication may be reproduced, copied or distributed without the prior permission in writing of IDAD. Returns from the structured products are at risk in the event of any of the institutions who provide securities for these products default on their financial obligations. All investors should seek advice from a suitably authorised financial adviser and investment must be made via an authorised Counterparty.

INVESTMENT DESCRIPTION

A 5 year investment product linked to the performance of the FTSE 100, Eurostoxx 50 and S&P 500. Initial Levels are the close of business level of the Underlyings on the product Strike Date.

If on any of the quarterly observation dates, including the Final Observation date, the closing levels of all Underlyings are at or above 75% of their initial levels, the income will be paid.

This investment will autocall and mature early if all Underlyings are equal to or above 95% of their Initial Levels on any quarterly observation date starting at 12 months. If early maturity occurs, full capital is returned and the investment will end. If early maturity does not occur the investment will continue to the Final Observation date.

At the Final Observation date, if all Underlyings are at or above 60% of their Initial Levels, then full capital is returned. If any Underlying is below 60% of its Initial Level, capital return will be reduced on a 1-for-1 basis. For example if the worst performing Underlying has fallen to 40% of its Initial Level, 40% of the capital will be returned.

KEY BENEFITS

- Autocall feature potentially shortens the investment term and can still be triggered if markets fall up to 5%.
- Conditional Income.
- Early maturity provides an opportunity to re-assess client's wealth strategy.
- An Index has to fall more than 25% before income is lost.
- Daily secondary market pricing under normal market conditions.

KEY RISKS

- The return is limited to the pre-defined investment terms.
- The income payment is conditional upon the performance of the Underlyings.
- There is a risk to capital should any Underlying breach the capital protection barrier on its Final Observation date.
- Investors will be exposed to the credit risk of the Issuer. If the Issuer becomes insolvent or cannot make the payments on the Product for any other reason, investors could lose some or all of their investment. A decline in the Issuer's credit quality is likely to reduce the market value of the Product and therefore the price an investor may receive for the Product if they were to sell them in the market.
- Should investors need to sell their investment before maturity, the trading price will likely mean they get back less than they invested.

IDAD was established in 2002 and our approach from the outset, is what we call the "IDAD Difference". The selection of the investments we offer is not decided in terms of profitability alone and when developing investment products, we favour evidence over dogma. We are happy to work with advisers and product providers alike to deliver a range of investment options to suit differing client wealth strategies. We're proud of our approach to business as well as the investments delivered as a result of the "IDAD Difference". We are committed to building upon our reputation for bringing benefits to all involved in the investment process, but most importantly to the clients.

SUITABILITY

This product may be suitable for investors who:

- Are seeking the opportunity for higher returns than current cash rates at the time this product was launched.
- Are seeking income rather than growth.
- Understand and accept there is a risk to capital and how the capital protection barrier works.
- Understand the impact of global economic issues and how they will affect the product.
- Understand the criteria which will determine the income payments.
- Are looking to invest for the medium term, being happy to remain invested until maturity.
- Can afford to have their cash invested for the full term of the product.
- Wish to use this investment as part of a well-diversified portfolio.
- Understand that the returns are pre-defined and that they will forgo growth in the Underlyings which exceeds the fixed level of income available with this investment product.
- Understand the risk to capital in the event of an Issuer default.
- Should they need to sell their investment, accept that the trading price will likely mean they get back less than they invested.
- Appreciate that income payments are conditional.

RATIONALE

Structured products are becoming increasingly popular for investors due to the wide variety of payoffs and levels of protection that can be achieved by the different types of structures that are available.

The opportunity for an income stream can be of key importance to investors as part of their wealth planning. The probability of an income payment being triggered is increased with this investment as an Underlying needs to show a fall of over 25% from the initial level on any observation date before the income stream is disrupted.

The Underlyings have been selected in order to support the anticipated delivery of that income.

The autocall payoff can bring an early return of capital allowing the opportunity for a re-assessment of investment strategy. The value of this feature cannot be underestimated as it brings with it the opportunity to secure capital value, as well as the chance to take advantage of future market trends.

To manage the capital risk, a final level barrier set at 60% means any Underlying must fall by more than 40% over 5 years before capital is at risk.

Secondary Market

The Issuer will endeavour to provide quotes under normal market conditions for trading purposes upon request, subject to a Bid-Offer spread of 1%. On the secondary market, traded prices will include any accrued interest (dirty prices).

Sale trades will settle 2 days after the trade date.

Trade orders should be sent to orders@idad.com.

All trades will be settled direct with IDAD's Euroclear a/c 44382

HOW TO INVEST

This product can be traded using Pershing, your chosen custodian that has permissions to trade and settle the product on your behalf. These can range from Pension Providers, Private Banks and Trading Platforms. This should be discussed with your adviser.

Please note that your cash will be in your account with Pershing until the issue date. Settlement then takes place delivery versus payment where the cash will leave your custody account and you will receive your investment holding into your custody account.

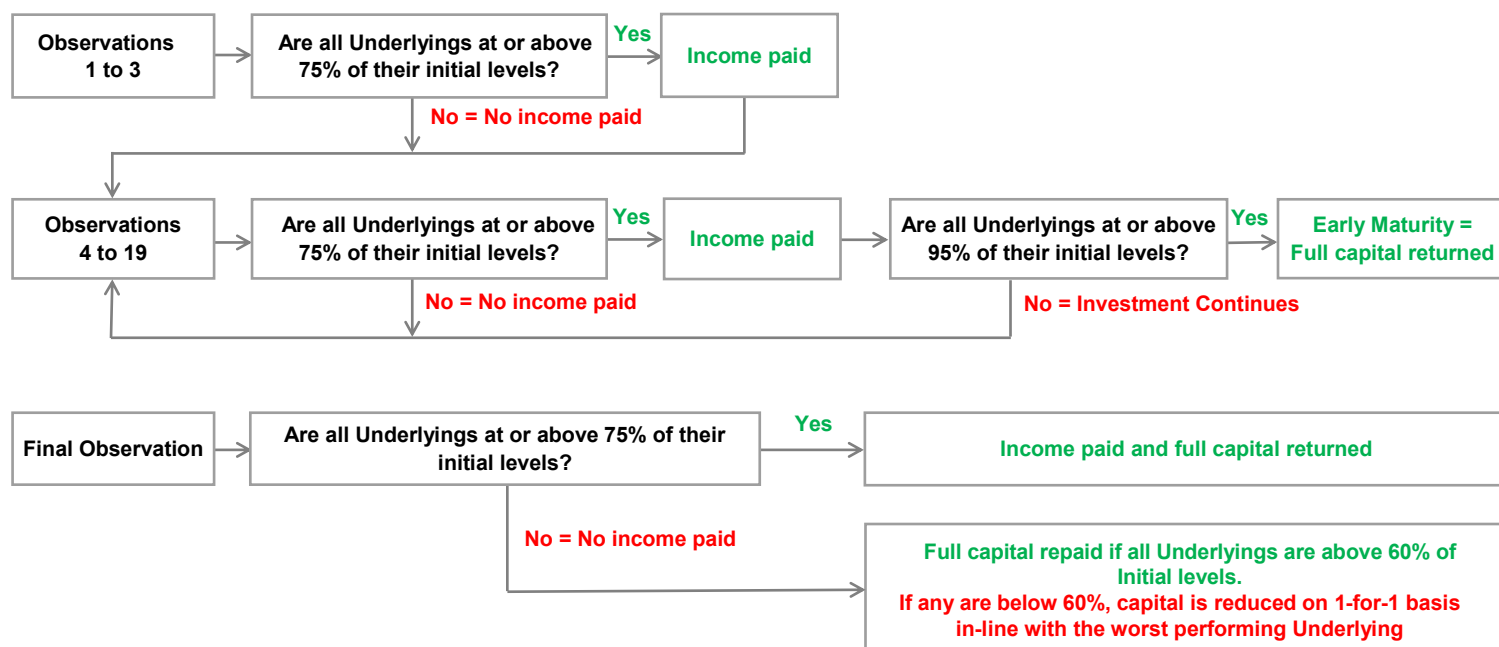

FEES AND CHARGES

IDAD will receive a fee from the Issuer for arranging this Product. The charge has been fully accounted for in the calculation of the Product's structure and is not expected to exceed 1.0%. Therefore this means that an investment of £10,000 will generate income based on £10,000.

There may be separate fees charged by your Financial Adviser and your chosen Market Counterparty. You should discuss this further with them.

HOW THE INVESTMENT WORKS

THE INCOME FEATURE

If the closing level of any Underlying is below 75% of its initial level on an observation date, the income will not be paid. If this occurs, the income will not be paid for that period.

The table below shows how this can work based on a £10,000 investment. You can see that the income is paid on the first three observations but then is not paid on the next two. On the Sixth and seventh the income trigger is activated again so the income for those observation is paid.

	Observation 1	Observation 2	Observation 3	Observation 4	Observation 5	Observation 6	Observation 7
Level of the worst performing Underlying	90.00%	85.00%	75.00%	72.00%	70.00%	81.00%	85.00%
Income paid?	Yes	Yes	Yes	No	No	Yes	Yes
Income % to be paid	1.50%	1.50%	1.50%	0.00%	0.00%	1.50%	1.50%
Income amount paid	£150.00	£150.00	£150.00	£0.00	£0.00	£150.00	£150.00

THE UNDERLYINGS

The **FTSE 100 Index** is a capitalization-weighted index of the 100 most highly capitalized companies traded on the London Stock Exchange. The equities use an investibility weighting in the index calculation. The index was developed with a base level of 1000 as of December 30, 1983.

The **EURO STOXX 50 Index**, Europe's leading blue-chip index for the Eurozone, provides a blue-chip representation of supersector leaders in the region. The index covers 50 stocks from 11 Eurozone countries. The index is licensed to financial institutions to serve as an underlying for a wide range of investment products such as exchange-traded funds (ETFs), futures, options and structured products.

The **S&P 500** is widely regarded as the best single gauge of large-cap U.S. equities and serves as the foundation for a wide range of investment products. The index includes 500 leading companies and captures approximately 80% coverage of available market capitalization.

MOVEMENT IN THE UNDERLYINGS OVER A 15 YEAR PERIOD

15 YEAR BACK-TESTING

Back-testing shows how the investment would have performed historically using data from previous potential strike dates and observations. Although past performance is not an indication of future performance, it can give a factual insight into how the investment would have performed historically. This 15 year back-test shows the historical data for a full 10 years of 5 year products that could reach the full term.

Of the 2,501 scenarios tested, 8.99% would reach the full term without autocalling, 7.96% of the time it would have breached the 60% final level barrier. All income observations have also been tested and out of all 2,501 scenarios tested 67.29% of income would have been paid.

Autocall Test	Autocalled	%	Autocall Test	Autocalled	%	Autocall Test	Autocalled	%
12 Months	1,612	64.45%	30 Months	93	3.72%	48 Months	0	0.00%
15 Months	48	1.92%	33 Months	48	1.92%	51 Months	0	0.00%
18 Months	36	1.44%	36 Months	3	0.12%	54 Months	0	0.00%
21 Months	43	1.72%	39 Months	0	0.00%	57 Months	3	0.12%
24 Months	86	3.44%	42 Months	1	0.04%	Total	2,077	83.05%
27 Months	104	4.16%	45 Months	0	0.00%			

Total Number Tested	% Autocalled	% Not Autocalled	% That Returned Full Capital	% Barrier Breach	Average Historic Return GBP
2501	83.05%	8.99%	92.04%	7.96%	4.52% p.a.

Factsheet Past performance is not a reliable indicator of future performance and should not be used to assess the future returns or risks

RISKS

All investments carry risk. Prior to investing in one of our structured products you need to make sure you fully understand the risks you are taking and accept the level of risk offered by the plan.

Having read over the product factsheet and these risks, if there are any areas that you are still unsure about, please consult with your financial adviser who will be able to help you.

Issuer Risk

The securities are issued by BNP Paribas Issuance B.V. (the 'Issuer'). Any payment obligations of the Issuer are secured by BNP Paribas. Should the Issuer fail or is unable to make payments due under the terms of the securities, BNP Paribas will meet the payment obligations on its behalf.

As the payment obligations of the Issuer are secured by BNP Paribas, repayment of your Initial Investment and any potential return from the Plan is subject to the continued solvency of BNP Paribas.

Market Risk

Underlying Index performance may be volatile and subject to unpredictable changes over the investment term. The value of your investment is affected by movements in the price of these indices and a fall may result in you not receiving any returns, and/or the loss of some or all of your capital. Your investment does not directly invest in the Underlying indices therefore you are not eligible for dividends or voting rights.

Early Redemption Risk

You should be prepared to hold any plan until maturity. It may be possible for you to sell this investment back to the Issuer early; however, they are not obliged to buy it and may stop such purchases at any time without notice. IDAD has no control over this: we act as your settlement agent. If you sell the investment early you may not get back what you initially invested.

Market Disruption Events

It is possible that a market disruption event might occur, such as trading disruption, changes to the indices, changes to index providers or changes in tax legislation. In these circumstances, the Issuer has the right to determine whether any adjustments to the terms of a plan are required. These adjustments may include, but are not limited to: adjustments to the opening or final level of the indices, postponing observation dates and substitution of an index. The Issuer is required to act in good faith when making these adjustments.

Reinvestment Risk

To invest in a structured product, you need to loan your capital to the Issuer for a set length of time. During this period, a rise or fall in interest rates may present other investment opportunities with a greater yield. You may be able to sell this product back to the Issuer if this situation does occur, however, the price the Issuer offer you may be less than you originally paid.

Inflation Risk

The value of your initial capital and any returns you may receive are not linked to inflation. If inflation is high over the term of the product, your purchasing power may decrease and so the real return could be low or negative.

Taxation Risk

Tax legislation may change during the life of the investment. The tax treatment depends on the individual circumstances of each client and is subject to change. IDAD does not provide tax advice and you should seek independent tax advice if in doubt. It is our current understanding that the returns on this note will be subject to income tax. Further information about tax in the UK is available from the government website: www.gov.uk.

FSCS Protection

This product offers no FSCS protection.

DISCLAIMERS

This factsheet constitutes a financial promotion and has been issued and approved for the purpose of section 21 of the Financial Services and Markets Act 2000 by IDAD Limited which is Authorised and Regulated by the Financial Conduct Authority FCA FRN 740499. All information, including prices, analytical data and opinions contained within this factsheet are believed to be correct, accurate and derived from reliable sources as at the date of the factsheet. The information within this factsheet does not take into account the specific investment objective or financial situation of any person. This material should be read and understood by the investor. If the investor is not a professional client or eligible Counterparty as defined by the FCA or is considered a retail investor, they should seek suitable financial advice before investing, to ascertain the full risks and terms associated with the investment. All investments must be made via an authorised Counterparty. All rights reserved. No part of this publication may be reproduced, copied or distributed without the prior permission in writing of IDAD. Investments may go up or down in value and you may lose some or all of the amount invested. Past performance is not necessarily a guide for the future. Returns from the structured products are at risk in the event of any of the institutions who provide securities for these products default on their financial obligations.

Any financial adviser shall fully disclose to its clients the existence, nature and amount of all fees and commissions it receives in respect of sales of the Note. They must also confirm any such fee or commission complies with all applicable laws and regulations in all relevant jurisdictions and its receipt does not conflict with applicable regulation or any duty to act in the best interest of any person to whom the professional financial adviser owes any such duty.

Potential investors should note that in purchasing any product described in this document, you will be purchasing from IDAD as principal and not as agent for BNP Paribas or any of its affiliates. You therefore will not have any contract with, or recourse to, BNP Paribas or its affiliates. Potential investors should also note that this document is the sole responsibility of IDAD and that BNP Paribas and its affiliates take no responsibility for the reliability, accuracy or completeness of its contents, any representations made herein, the performance of the product or the marketing of the product including compliance with any applicable marketing or promotion laws, rules or regulations. BNP Paribas and its affiliates specifically disclaim any liability for any direct, indirect, consequential or other losses or damages including loss of profits incurred by you or by any third party that may arise from any reliance on this document.
